

Analysis of Velocity (Delivery Speed)

Short paper by
Harold van Heeringen
(ISBSG Data Collection and Product Manager)

About the short paper

There are differences between the Agile concept of velocity and the traditional idea of delivery speed. In this short paper the differences between the two are discussed.

It shows the results from analyzes of Velocity (Delivery Speed) of recent, Java projects in the ISBSG repository. In particular, the Delivery Speed of projects within different functional-size groupings is considered.

Detail covers:

- The distribution of the Delivery Speed for Agile projects
- Delivery Speed per size category of Agile teams
- Delivery Speed by Functional Size of Agile teams
